

## WEEK 2

```
3. import java.util.*;
public class Series
{
    public static void main (String [] args)
    {
        Scanner sc = new Scanner (System.in);
        int i, j, c = 0, n;
        System.out.println ("Enter the number of rows");
        n = sc.nextInt ();
        for (i = 0; i <= n; i++)
        {
            for (j = 1; j <= i; j++)
            {
                c++;
                System.out.print (c + " ");
            }
            System.out.println ();
        }
    }
}
```
